

How to Become SDET with 6 figure salary In 2022?

Is it possible?

Link. - LinkedIn Salary, PayScale.com

MindSet

Busting Myths

I am not good with programming

- Practice
- Require Core Java + Some of Advance Concept
- Do Practical Project and understand
- Take Time
- I have Seen people with Non IT background to move to SDET Role in India, Germany

I can do Manual, No Automation

- I have seen people becoming comfortable in the Manual Testing
- They are stuck in the Career
- No Growth, No Salary hike still the enjoy

They are in Comfort Zone

I can't do it

- Give it a try
- I have give a try, Not working for me

Problem Solving

Programming Knowledge

Java

You can Start with Core Java

- 1. Core Java Programming Introduction of Java
- 2. Data types and Operators
- 3. Control Flow statements
- 4. OOPS and its application in Java
- 5. Packages
- 6. Statics and Constructors
- 7. Exceptions in Java
- 8. Strings in Java, Access Modifiers
- 9. Collection Framework in Java
- 10. Generics and IO in Java
- 11. Serialization, Inner Classes, Threads
- 12. Debugging of Java Programs in Eclipse / IntelliJ
- 13. Java Database Connectivity, RMI (Optional)

- Take Online courses Udey and Other
- Join Jspider and Many Other or any other coaching institutions if possible
- Keep learning and doing projects
