

# 🕒 9 Things I Wish I Knew When I Started as QA Engineer

- Testing is easy Myth 
- Salary of Software Tester 
- Respect to QA in the Software Industry 
- You have to Love Coding if you want to become Automation/ SDET 
- Tester should be involved from first day of project 
- Software testing is not waste of time 
- Developers and testers are equal 
- Everyone Blame QA for the Bugs 
- You have to wear different Hats, like dev, ops, and support
